

14th PALES ANNUAL CONVENTION

Precision, Automation in Laparoscopic and Endoscopic Surgery: Engaging Robotics and AI for MIS Excellence
July 10 – 12, 2024 (Wednesday – Friday)
EDSA Shangri-La Hotel, Mandaluyong City

Theme:

Precision, Automation in Laparoscopic and Endoscopic Surgery: Engaging Robotics and AI for MIS Excellence

Description:

PALES engages in the growing convergence of cutting-edge technologies such as robotics and AI in the field of minimally invasive surgery, emphasizing the pursuit of precision and minimally invasive techniques for better patient outcomes and enhanced surgical procedures. This conference will demonstrate some of the novel approaches that are presently being applied to different surgical specialties and their global impact on the world of MIS

GENERAL Objectives:

At the end of the conference, delegates are expected to:

1. Understand the different advancement in the field of MIS and its impact to both patients and surgeons of our country.
2. Learn the techniques and innovations in achieving good clinical outcomes.
3. Engage in interactive discussion among experts in the field of MIS.
